REPORT OF THE SUPERINTENDENT

I herewith submit the 27th Annual report of the Bristol County Hospital for the year ending December 31, 1945.

There were 44 patients in the hospital on January 1, 1945 and 70 patients were admitted during the year. Of the 70 patients admitted during the year, 50 were first admissions and 20 were re-admission cases. There were 46 male and 24 females. The largest daily census was 53 and the lowest 41. The average daily census was 45.8 and the total hospital days was 17,121.

There were 65 patients discharged. At the end of the year there were 49 patients in the hospital. Of these 30 were males and 19 females.

Treatment

A total of 114 patients were under treatment during the year and 21 patients received some form of collapse therapy. A total of 211 pneumothorax treatments were carried out on 17 patients. Phrenic nerve operation was performed on 2 patients. Thoracoplasty was carried out on 4 patients with a total of 11 operations.

Other examinations and treatments were as follows:

Laryngoscopies 10; Bronchoscopies 5; Aspirations of chest 2; Bladder Irrigations 108; Wasserman tests 4; Blood sedimentations 12; Sputum examinations 316; Urine analysis 2,166.

A total of 152 chest x-ray examinations were made on house patients and 17 on employees. There were 400 fluoroscopies.

In the Out-patient department a total of 1,596 visits were made by

926 patients. Of these 142 were follow up discharged cases of whom 11 received pneumothorax treatments. A total of 1,387 chest x-rays were taken in the Out-patient department, 12 of these were x-ray survey cases. The total number of chest x-rays on house patients and out-patients department cases was 1,439.

We note the fact that as in previous years there were almost twice as many male patients as female patients. The average age for males was 49 years and the average age for females was 29 years.

Rehabilitation

The rehabilitation program has comprised an in-sanatorium program and follow-up work on selected discharged cases and survey work on the problem of tuberculosis at home. This service is made possible through the County Health Association who derive funds for financing this program from the sale of Christmas seals.

The in-sanatorium work consisted largely in keeping up contacts with patients as they were admitted and cared for. Hand craft work such as knitting, crocheting, block printing and wood work and weaving was encouraged and patients were advised and guided into suitable studies.

505 visits were made to patients in the hospital; 59 out-patients were visited in their homes; 58 calls made on discharged patients and 19 contact calls were made at homes.

Repairs and Upkeep

During the year several major and needful repairs were carried out.

A portion of the floor of the large front veranda of the administration building was taken up and replaced by new flooring. This operation successfully stopped leaking of rain water into the basement rooms below.

The floor of the main dining room was sanded and refinished. Walls and ceiling of the dining room received two coats of paint. Painting jobs were carried out in several rooms in the nurses quarters and in the women's recreation room. Repairs and painting were done to the walls of the x-ray room and the men patients lavatory.

During the year contracts were let for tiling walls and installing new plumbing in the male employee's lavatory and in the nurses' lavatory, owing to lack of available materials the work in the nurses' lavatory has been delayed.

A contract for a new high pressure boiler was awarded to the Bigelow Company of New Haven. The boiler has not yet been installed.

In the laundry a hand press with new air compressor was installed to take the place of the old foot operated press. This was a very worthwhile improvement.

A new meat slicer was purchased for use in the dietary department.

Automatic emergency lights were installed near important exits from the hospital and nurses' and help's quarters.

The roadway around the hospital was resurfaced.

Many minor general repairs were carried out.

A silage cutter was purchased for use on the farm.

Farm

During the year 90 tons of hay and 65 tons of silage corn were harvested. The farm supplied the hospital with 3146 dozen eggs and 36,291 quarts of milk. This was valued at \$6,653.74. Value of fowl and pork furnished the hospital was \$122.20. Farm produce sold was valued at \$1,385.94. Total value of produce supplied hospital and sold was \$8,161.82.

The live stock on the farm at the end of the year consisted of 3 horses, 9 cows, 2 heifers, 6 hogs, 1 boar and 250 hens.

Remarks

Although the year which has just closed witnessed the end of the war we still find it difficult to maintain a complete quota of help in all hospital departments. Some of this difficulty may be in part due to the fact that the sanatorium is located some three and one-half miles from the center of the nearest city and transportation service to and from the city is not satisfactory.

It has not always been easy, and at times not possible to obtain the types and grades of meat we would prefer to have. In spite of handicaps the patients received good care and were well fed.

There have been delays in getting chest surgery performed because of an inadequate number of beds and reduced staff at the hospital to which our patients are referred for this type of surgery. We hope for an improvement in this service in the near future but to date there are no signs of any relief from this bottleneck.

During the year Miss Wilma Foerster our rehabilitation worker resigned. Miss Foerster made many friends among members of the staff and more particularly among the patients whom she served. They looked forward eagerly to her visits to the hospital and appreciated the guidance she gave and the personal favors she bestowed.

Many individuals visited the hospital during the year and brought cheer and comfort. We wish to thank the Sigma Class of the Methodist Church of Attleboro for their continued interest in the welfare of the patients at this hospital, also the group of employees from the Metals and Controls Corporation for the entertainment they provided.

Our thanks we again extend to the clergy for their visits and for caring for the spiritual needs of the patients.

To all employees for their loyalty and faithful service I offer my thanks and gratitude.

To the Trustees who have given me counsel, advise and support and have shown great interest in the welfare of the patients and in the operation of the hospital I am deeply indebted and very thankful.
